As we are in Tier 4, the Government guidelines state places of worship can open for communal services. This means we can continue with our Masses.

Once in church, you must: - wear a face covering to keep your nose and mouth covered at all times (except when receiving Holy Communion) - sit in your allocated seat and not move around or chat with friends or fellow parishioners from outside of your household or support bubble. These are requirements of us being able to be open and we appreciate your support with this.

A warm welcome to our visitors!

CAFOD Climate Crisis petition to the Prime Minister

Please take a few minutes to help save the lives, homes and livelihoods of people in the poorest countries. The climate crisis is pushing the planet's tropical regions towards the limits of human liveability, with rising heat and humidity threatening to plunge much of the world's population into potentially lethal conditions, new research has found. Should governments fail to curb global heating to 1.5C above the pre-industrial era, areas in the tropical band that stretches either side of the equator risk changing into a new environment that will hit "the limit of human adaptation", the study warns.

This November, the United Kingdom will host one of the most important world summits of the century which must put us on track to end a climate emergency.
